

INTERNATIONAL WEEK

Dear Partners,

we are pleased to invite you to the 4th Škoda Auto University INTERNATIONAL WEEK which takes place between the 10th and 14th of June 2024 at our campus in Mladá Boleslav, Czech Republic.

This year we focus on the technical education in higher education institutions. We would like to offer you an opportunity to visit lectures and seminars, socialize with administrative and academic staff and take an active part in the programme.

Especially, we would like to invite you to experience the International Conference on Automotive Industry (13th & 14th June 2024) free of charge.

We have designed the programme in such a way that all participants would get an insight into the modern way of teaching and supporting students within the world of business at large and the automotive industry in particular.

We see this international week as a great way to enhance the quality of the collaboration with our partner universities. All of our colleagues, both administrative and academic, are very welcome to participate.

We welcome guest lecturers who would like to hold a workshop/round table during the International week (11th, 12th June 2024).
